

4th-6th Grade Class Descriptions

LANGUAGE ARTS

Grammar/Writing - Students will hone their writing skills through exercises and word games. They will learn to think out of the box by developing their skills through picture study, memorization, punctuation, spelling, poems, psalms, creative writing, and more.

To use this class to satisfy the grammar/writing and spelling portion of your language arts requirement, all writing assignments are to be completed.

READING

Book Club - Students will read genres from historical fiction, biographies, autobiographies, adventure, fantasy, and mystery. They will answer questions, play games, and create fun projects that correlate with the stories that they read.

MATH

Math Art - Students will explore the art of math as they utilize patterns, geometry, angles, graphing, symmetry, and the Pythagorean Theorem. They will also have the opportunity to practice using tools such as a compass, ruler, and protractor. (This class is designed to supplement what you are learning at home.)

LIFE SKILLS - Semester 1

Home Economics - Students will become familiar with kitchen tools, learn how to follow simple recipes, and utilize appliances safely. In addition, they will develop foundational knowledge for budgeting, sewing, home management, design, health, and hygiene.

CREATIVE ARTS

Children will have the opportunity to explore their talents, build confidence, and unleash creativity through drama, dance, music, painting, sculpture, and more! In addition, they will learn valuable teamwork and communication skills.

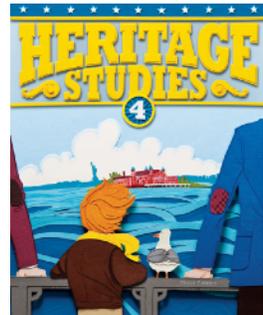

BIBLE

This fact-based study will help students become confident in their Christian faith. It will deepen their understanding by focusing on the evidence that affirms Christianity through the stories explained in the Bible.

The curriculum for this class will be ordered in bulk and supplied to each student at the cost of \$20 each.

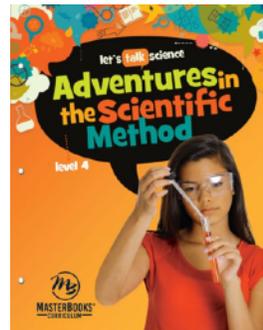

SOCIAL STUDIES

American History - Students will use maps and timelines to create hands-on projects while learning the history of America, from the founding of our country until World War II. Additional content will cover the regions of the United States. Here is the link to purchase the curriculum online: <https://www.bjupress.com/heritage-studies-4-student-text,-3rd-ed./5637430514.p>

SCIENCE

Adventures in the Scientific Method - Students will love exploring marine biology and chemistry! Through conversational lessons, hands-on experimentation, observation, and documentation, students will encounter God's design as they explore matter, elements, the carbon cycle, measurements, worldview, classification, the ocean, tide pools, coral reefs, algae, seagrass, and marine life. COORDINATION & COOPERATION - Semester 1

Brain Games - Students will have a blast improving their balance, hand-eye coordination, and listening abilities through the use of balls, bean bags, ribbons, scarves, and all sorts of things! Throughout their exercises they will also learn teamwork and cooperation as they follow the patterns of the movements.

COORDINATION & COOPERATION - Semester 2

Move and Groove Fitness Fun - This is an introduction to the importance of caring for our bodies through exercise. Students will come together for games and learn organized sports, such as gaga, kickball, and soccer.
